Daily Sync

A short daily check on progress toward the goal: walk the board, raise blockers, and plan the day together.

Run Events · Daily Scrum · Stand-up · Kanban Meeting · 15 Minutes

WORKED EXAMPLE · FICTIONAL TEAM

TEAM: Basket team

TIME & PLACE: 09:30, at the board

1 Our Goal

EVERY CONVERSATION POINTS HERE

We're working toward: returning customers can see their last order and reorder it in one tap

Days left: 6

Sprint goal, iteration goal, or the outcome the team is focused on this week

2 Ground Rules

- [x] 15 minutes, same time, same place
- [x] For the team, not a status report
- [x] Details go to the parking lot

3 Walk the Board

RIGHT TO LEFT · FINISH BEFORE YOU START

1. What's nearly done, and what's needed to finish it?
2. What's blocked or getting old? Who can help?
3. What will we finish today?
4. Only then: what should we start?

WALK THIS WAY

READY	IN PROGRESS	REVIEW / TEST	DONE
Reorder from order history	Offer a substitute if out of stock	Track reorder events	Show the last order on the home page
Save favourites	Reorder adds every item		

blocked 2 days: Stock API

waiting for privacy sign-off

4 Questions to Ask

ABOUT THE WORK, NOT THE PEOPLE

For each item on the board

What's needed to finish this?
Is anything blocking it?
Who can help, today?
Is it older than our SLE?

The classic three questions

What did I do yesterday toward the goal?
What will I do today toward the goal?
Do I see anything in the way?

Useful, but easily becomes a status report.
The Scrum Guide no longer requires them.

5 Blockers & Swarms

ACT TODAY

ITEM	BLOCKED BY	SWARM?	WHO
Offer a substitute	Stock API (Warehouse)	yes	Sam, Jo
Track reorder events	privacy sign-off	no	Priya

6 Parking Lot

AFTER THE SYNC

- Topics that need more than a minute
- Note who stays to discuss

Test data for reorders (Alex and Tom stay)

Too many meetings on Thursdays

7 Sync Health Check

ONCE A WEEK

- [x] Finished within 15 minutes
- [x] Talked about the goal, not just activity
- [ ] Oldest and blocked items discussed first
- [x] Every blocker has an owner
- [x] We know what we'll finish today
- [x] Everyone could take part

If a check fails, we'll try: oldest items first, right to left

"What will we finish today?"

"Who needs help, and who can give it?"
