1 Sprint Goal & Result

Team & sprint: Basket team · Sprint 18 (28 April – 9 May)

Sprint Goal: reorder in-stock items in one tap, and flag what's unavailable

Did we achieve it? ☐ Yes ☑ Partly ☐ No

What we learned about the goal: flagging works; substitutes need the Stock API first

2 Key Measures

DID THE NUMBERS MOVE?

MEASURE	BEFORE	NOW	TARGET
Weekly repeat orders	22%	25%	30%
Median basket time	38 min	21 min	10 min
Reorder clicks per visit	–	0.18	0.25

3 What We Built

DONE ITEMS ONLY

- Only work that meets the Definition of Done
- Show working product, not slides

- One-tap reorder (in-stock items)
- Unavailable items flagged
- Reorder from order history
- Email confirmation

4 Stakeholder Feedback

LISTEN FIRST

- What did you like? What worries you?
- What would you change or add?

- Store Ops: flagging is clear
- Customer panel: "so much faster"
- Finance: worried about substitute margins
- Marketing: feature it in the summer campaign

5 What's Changed Around Us

CONTEXT

- Users, market, competitors
- Budget, timeline, priorities

- A rival launched subscriptions
- Stock API slipping two weeks
- Campaign date fixed: 30 June

6 Backlog Changes

WHAT THE REVIEW CHANGES

Add

New items from feedback

- Rule for discontinued items
- Margin check for substitutes

Change

Re-order, re-shape or re-size

- Substitutes move to Sprint 19
- Order history: a smaller first slice

Remove

No longer worth doing

- Dark mode

7 What's Next

Likely next Sprint Goal: substitutes for out-of-stock items

Release / forecast update: 13–20 June, unchanged

Decisions needed from stakeholders: read access to stock data

Who follows up: Priya, by Wednesday
