Product Vision Board

Describe the change the product will bring, who it's for, what they need, and how we'll know it's working.

Envision · Inspired by Roman Pichler's Product Vision Board · Outcomes Over Output

WORKED EXAMPLE · FICTIONAL TEAM

PRODUCT: Basket

OWNER: Priya

1 Vision

THE POSITIVE CHANGE THE PRODUCT WILL BRING · NOT WHAT IT IS

Our vision is... busy households get their weekly shop done in two minutes, and spend the time they save on things that matter more.

2 Target Group

WHO?

- Which users and customers?
- Who is the most important group?
- Who is it not for?

Busy families who shop every week

Older customers who buy the same things

Not for: one-off bulk buyers

3 Needs

WHY?

- What problem does it solve?
- What benefit does it bring?
- How do they solve it today?

Rebuilding the weekly shop takes 40 minutes

Forget items, pay for a second delivery

Today: a paper list or last receipt

4 Product

WHAT?

- The 3–5 things that make it stand out
- Is it feasible?
- How is it different?

One-tap reorder of the last basket

Saved favourites

Smart substitutes when out of stock

Subscriptions for staples

5 Business Goals

WHY US?

- How does it help the organisation?
- Revenue, cost, reach, reputation?
- Which goal matters most?

Repeat orders 22% → 30%

Lower cost to serve per order

Win back lapsed customers

6 Measures of Success

HOW WE'LL KNOW IT'S WORKING

OUTCOME	MEASURE	BASELINE	TARGET
Customers reorder easily	weekly repeat orders	22%	30%
Shopping is faster	median basket time	38 min	10 min
Fewer forgotten items	2nd order within 2 days	9%	5%

7 Riskiest Assumptions

TEST THESE FIRST

- What must be true for this vision to work?
- Test the riskiest with the 1% Experiment Canvas or an MVP

Customers want much the same basket each week

Stock data is good enough to suggest substitutes

Payments can support subscriptions

"What will be different for our users when this succeeds?"

"Who is this not for?"
