2 Check the Matrix

- [x] Exactly one A in every row
- [x] Every row has at least one R
- [x] Few Cs: each one slows a decision
- [x] No one is R for everything
- [x] The people named have agreed

3 Decision Log

WHAT WE DECIDED, WHY, AND WHEN TO REVISIT

#	DATE	DECISION	OPTIONS CONSIDERED	WHY	DECIDED BY	REVISIT WHEN
1	2 May	Pilot with 50 customers, by hand	Full build; fake door only	Learn before spending £40k or more	Priya, Head of Digital	after 4 weeks
2	7 May	Basket gets read access to stock data	Wait for the Stock API; copy the data	Unblocks substitutes now	Head of Warehouse	when the API ships
3	9 May	Self-service release checks for Checkout	Keep sign-off; sign off big changes only	Sign-off was the bottleneck	Payments lead	after any incident

"Who is accountable for this, just one person?"

"Why did we decide that, and what would make us revisit it?"
