Cross-Team Planning

Plan a period of work across several teams: shared objectives, each team's plan, milestones and risks.

Coordinate Teams · Big-Room Planning (SAFe: PI Planning) · Shared Objectives · Team Plans

WORKED EXAMPLE · FICTIONAL TEAM

GROUP: Basket group

PLANNING PERIOD: Q2 · 5 iterations

1 Shared Objectives

WHAT WE'LL ACHIEVE TOGETHER

OBJECTIVE	VALUE (1-10)	TEAMS
Make the weekly shop effortless	9	Basket, Search & Browse
Make sure nobody forgets an item	7	Basket, Checkout
Make checkout quick and trustworthy	8	Checkout, Payments, Platform

2 Context & Constraints

Product vision / goal: The weekly shop in two minutes

Fixed dates & events: Summer campaign launches 30 June

Capacity changes (holidays, hiring): Ravi joins Basket; Platform one person short in iteration 3

Platform or architecture changes: New payment provider: Q3, not this period

3 Team Plans

ONE ROW PER TEAM · STICKIES IN THE ITERATION THEY'LL BE DONE

	ITERATION 1 7–18 Apr	ITERATION 2 21 Apr – 2 May	ITERATION 3 5–16 May	ITERATION 4 19–30 May	ITERATION 5 2–13 June	RISKS & NEEDS
Milestones	◇	◆ Reorder live	◆ Subscriptions pilot	◇	◆ Summer campaign	Campaign date is fixed
Team 1 Basket	Reorder card	Substitutes	Subs pilot	Reminders	Favourites	Needs the Stock API by iteration 2
Team 2 Checkout	Self-service deploys	Faster releases		Wallet payments	Promo codes	Wallet API from Payments, iteration 4
Team 3 Payments	Fraud rules		Repeat billing	Wallet API		Sign-off is a bottleneck: agree self-service checks
Team 4 Search & Browse	Faster search	Usual-items search		Recipes		Last-order data from Basket (done)
Team 5 Store Platform	Deploy pipeline		Monitoring		Cost review	One person short in iteration 3

4 Confidence Vote

FIST OF FIVE

1 · 2 · 3 ×4 · 4 ×14 · 5 ×6

Anyone at 1–2? Explore, adjust the plan, re-vote.

5 Risks to the Plan

- Stock API slips → substitutes move to iteration 3 (Sam owns)
- Payments sign-off becomes the bottleneck (reduced)
- The campaign date can't move (accepted)

6 Capacity Split

AGREE IT UP FRONT

Features %: 70%

Tech debt & enablers %: 20%

Unplanned buffer %: 10%

"What will we achieve together that no team could achieve alone?"

"Which dependency, if it slips, takes the plan with it?"
